

Are you owed money?

**Subcontractors deserve
to be paid on time.**

Contractors should pay subcontractors on time.

- Not paid when due?
- Getting pressure not to seek your payments?
- No documented payment dispute process?
- Adjudication determination not paid?
- Unsure if the ABCC can help?

If a contractor owes you money and you think they tender for Commonwealth funded building work, contact the ABCC. Report your complaint and we'll find out if they're covered by the Code.

At the ABCC, it's our job to help. We regulate the *Code for the Tendering and Performance of Building Work 2016*. The Code has strict rules about security of payment.
